Message from Director's Desk

Prof. S. Sundar (Director NIT Mizoram)

NIT Mizoram began its journey in 2009 to achieve global renown in research and education. Since 2009, the Institute has progressed rapidly. Presently, there are about 850 students studying in various disciplines of Engineering, Sciences, Humanities and Social Sciences. The Institute is working untiringly to impart quality education that keeps pace with the latest advances in research and development activities.

We are in the process of signing an MOU with IIT Madras with the scope of collaboration on academic and research activities, exchange of academic information, scholarly information, materials, and publications, exchange of students and faculty, and sponsorship of cooperative seminars, workshops, and other academic meetings from 2022-23. This would facilitate the top 10% of students, at the end of 6th semester of National Institute of Technology Mizoram to seek admission to the direct PhD program of IIT Madras, and enable successful candidates to pursue the 7th and 8th semesters of their BTech program at IIT Madras.

The year 2021 saw an increase of over 60 students. NIT Mizoram hosted FICTA 2021 (International Virtual Conference) from 25th to 26th June 2021 in collaboration with Springer as Publication Partner, IBM as Technical Partner. In the conference, keynote lectures were delivered by eminent academics around the world. From 18th to 19th June 2022, NIT Mizoram is also organizing FICTA 2022. Our faculty and research scholars have published in reputed journals including Nature and won several awards including best paper awards in international conferences. Dr. S. Vipej Devi, faculty member of Civil Engineering Department has won the prestigious postdoctoral industrial fellowship granted by IGSTC in 2022.

At present NIT Mizoram is situated in a temporary campus at Aizawl. With the support of the state govt, we are expecting the completion of the partially completed permanent campus at Lengpui, Mizoram within the next two years with best of the facilities for the excellent academic ambience.

The faculty, students and staff of NIT Mizoram are working hard with utmost sincerity and dedication to accept the challenge of making NIT Mizoram a preferred destination for high-quality learning, research and innovation. Their new initiatives will surely bear rich fruits during the years to come.

Department of Electronics and Communication Engineering

The department of Electronics & Communication Engineering in NIT Mizoram commenced its journey in 2010 in VNIT Nagpur campus and later shifted to Aizawl. The first B.Tech batch passed out in 2014. Once a toddler, the department has gradually spread its wings and now offers three programmes – B.Tech, M.Tech in Microelectronics & VLSI System Design and Ph.D. The department is presently functioning in three academic blocks. The Academic Block II has the classrooms and a Computer and Simulation Laboratory. This laboratory is used for software based practical courses and is equipped with a number of essential software. The regular M.Tech and Ph.D research scholars carry out their simulation works in this laboratory. The Academic Block III has a faculty room and three laboratory rooms where most of the hardware based practical courses related to Communication, Analog and Digital Circuits, Integrated Circuits and Microprocessors & Microcontrollers are executed. The Academic Block IV has a faculty room, another Computer and Simulation laboratory and a RF & Microwave Engineering Laboratory. This is a state-of-art laboratory which, alongwith the B.Tech practical course, facilitates experimental research of Ph.D scholars.

The Department has seven faculty members and one Technical Assistant. All the faculty members are Assistant Professors, out of which four are regular, two are AdHoc and one is temporary faculty member. The faculty members are very dedicated towards teaching and research. They ensure that quality education is imparted to the students so that they are bestowed with proper knowledge and aptitude to choose career options either in industry or in academics. The broad areas of research of the faculty members encompass the domains of RF & Microwave Engineering, VLSI, Semiconductor Devices, Nanotechnology and Communication Systems. The active involvement of the faculty members in research has resulted in significant research publications in internationally reputed journals and conferences. The department has two completed and one ongoing Govt. sponsored projects. 02 students have been awarded Ph.D in the department. The faculty members have published over 180 papers in reputed journals and conferences in the last five years. There are 07 patents granted to Dr. R.S. Dhar, Asst. Prof. in the Department. The alumni of the department have been engaged in very prestigious services as employees like Indian Engineering Services ECIL, BEL, Indian Railways, Airport Authority of India, Texas Instruments, Intel, Samsung, Vedanta, Infosys, Wipro, TCS, etc. Students have opted for higher studies in institutions like Univ. of North Carolina, USA, Defence Inst. of Advanced Technology, IIT-BHU, IIT Bombay, IIT Guwahati, etc.

The Department has 35, 29, 24, 26 students in B.Tech 1st, 2nd, 3rd and 4th year respectively.

There are 4 and 3 M.Tech students in 1st and 2nd year respectively. Apart from teaching regular subjects, the department organizes various short-term courses and expert lectures where resource persons from various reputed Institutes are invited to deliver talks on cutting edge technologies pertaining to ECE so that the students are aware of the newest developments in the frontiers of technology. Apart from semester exams, the progress of the students is monitored by the respective subject coordinators through various assignments and quizzes. The department has separate programme coordinators to resolve any issues related to B.Tech, M.Tech and Ph.D students. The students have been given freedom to approach the faculty members with any subject related

problems. Multi-disciplinary courses are offered in the B.Tech curriculum and elective courses are offered by keeping in mind the recent trends in technology nation-wide. The students are encouraged to undertake industrial internship of atleast a month and there is a separate credit course to emphasize on this matter.

The department is still in a growing stage with developments being made in laboratory facilities and promulgating more in-depth knowledge with student-centric teaching methods. The cordial environment created through the hand-holding of teachers and students has sustained the nurturing of proper education with a promise of a better future ahead.
